

Attorney's Docket No.:12058-006001

Amendments to the Abstract:

Please replace the abstract on page 20 with the following amended paragraph:

A toy with a springable cord and a ball. The toy ~~comprises~~ has a ~~novel~~ wrist band, elastic cord and ball construction. The wrist band ~~of the present invention uniquely~~ provides ~~means~~ a way for minimizing twisting and knotting of the elastic band located at the base of the palm of the user. The construction of the elastic cord and ball provides ~~means~~ a way for minimizing the degrading and wear contract of elastic cord with surfaces struck on the ball.
